About

I'm a Sr. Solutions Architect working in the Customer Acceleration Team (CAT) in the AWS World Wide Public Sector. My team focuses on unblocking customers and delivering well architected guidance to guide their AWS journey.

In the past, I have developed for Web, Angular, C#, BizTalk, SQL, SSIS, general BI applications, OBIEE or whatever else

was thrown at me. I also did a stin in InfoSec and it's passion that continues to inform my work everyday!
