This question already has an answer here:

[How to create a grid in bootstrap with boxes of multiple columns and rows?](#) (1 answer)

Closed 9 years ago.

How do I create the grid that I describe in the image with bootstrap? The problem in my eyes is that you cannot dissect the image in smaller squares that allow you to use the nesting functionality.

```
<div class='col-sm-2' style='height:210px;'>
  <div class='col-xs-12' style='background: red; hei
</div>
<div class='col-sm-10' style='height:100px; margin-bot
  <div class='col-xs-12' style='background: red; hei
</div>
<div class='col-sm-3' style='height:100px'>
  <div class='col-xs-12' style='background: red; hei
</div>
<div class='col-sm-7' style='height:600px'>
  <div class='col-xs-12' style='background: red; heig
</div>
<div class='col-sm-5' style='height: 490px; top:-490px
  <div class='col-xs-12' style='background: red; hei
</div>
```

Thanks user1794125! I thought about moving the last column up but was wondering whether I was overlooking an alternative. I guess I just go for this solution. Thanks again!
