About

Former anthropologist, amateur programmer since 1979, professional programmer since 1995. In my last job, despite my vigorous protests, I was given the actual title of "visionary" - I will be trying to live this down for the rest of my life.

I do C#, software synthesis, animation, windows mobile, iPhone/iPad (Objective-C), Android, BlackBerry and Windows Phone 7. Also java server stuff.

If you live in Philly and play disc golf or Ultimate (frisbee), we may know each other already.
