## About

I do things. I am a doer of things. Microsoft certified professional that has an interest in computers, technology, making, and finding solutions. Work with Macintosh, Windows, and Linux systems developing in `C/C++` and `PHP` primarily. Familiar with many other programming languages, protocols, and scripting languages.

Seasoned engineer with twenty years of technical experience in desktop support, network support, programming, and support services. Experience in creating a variety of technical

documents, reference articles, scripts and training material for existing and emerging technologies that continue to be used. Takes initiative to improve efficiency by creating website apps and is an ambassador of the worry free experience in all
