About

I'm a cofounder of a startup where I work as a full-stack Web Developer doing [HTML/CSS](#), [React](#), [TypeScript](#), [Node.js](#), and [Postgres](#).

I have a B.S. in Computer Science from Utah State University (USU). My favorite class I had at University was probably Discrete Mathematics which includes some of each of the following: set theory, logic, graph theory, combinatorics, and number theory. I also enjoyed USU's Computational Geometry and Advanced Algorithms course.
