## About

My name is Chris Edwards and I am a software developer with 18 years of professional experience writing software, plus many more prior to that as a hobbyist. I love software design and development. I consider myself blessed to love what I do for a living.

I am married to the woman of my dreams (Niki), and we have three sons: Hayden (8), Parker (4) and Mason (1). I truly don't deserve the family God has given me, and I am thankful for them.

When I was a kid, I saw the movie “Wargames” with Matthew Broderick. I was fascinated by computers and made up my mind then and there that I wanted to be a programmer. So, here I am doing what I love
