About

Shane is a top-notch software developer and project manager with over 20 years of experience in application development and client services. Over the last decade, he has managed dozens of website and software projects for clients including the World Resources Institute, USAID, and the World Bank.

He currently leads administration and project management at [DevResults](https://devresults.com) and oversees customer support, infrastructure planning, and service maintenance.

Shane graduated with honors in Computer Engineering from Virginia Tech and is a Microsoft Certified Professional. His first professional lines of code were written for [radar systems](#) and [high-speed buses](#) at general motor's forewarn group
