About

Experimental nuclear and particle physicist. These days I'm in scientific programming, but I've also been a teacher and once spent a lot of time on nucleon structure in fixed target electron scattering and neutrino oscillations using reactors and beam sources.

Ontology can take a flying leap if it obscures consequential behaviors.

According to shog9, I'm a kitten. Really. *::purr purr purr::*

I am inactive on Stack Exchange for the time being. If you need me [I have started a blog](#) in order to maintain some kind
