About

M.Sc. Candidate in Computer Science (Parallel and Distributed Computing), living in Saskatoon, SK, Canada. In the very first stages of a make-the-world-better-through-computing startup.

I've been programming computers and learning for most of my life. I started with a Vic-20 when I was 8 years old, checking books out of the public library... the rest is a blur.

Most of my recent work has been in Python, with some C, Lua, Java, C#, Perl, VB.net, Matlab, and probably a few

others.
