About

[Resume over here](#)

I'm a software developer/architect currently mainly working on industrial telemetry systems using a mix of Elixir, C++, and Python.

I work full time for [IndustrialML, Inc.](#) and as of September 2022, am registered as the executive director for the

IndustrialML GK subsidiary in Japan.

I've also spent a lot of my life working in Ruby (with and without Rails), C#, Java, and some more esoteric languages. I sometimes do technical program management and serve in a technical advisory capacity for projects involving AWS,
