About

I oversee development of marine terminal distributed software systems. We use C# .NET, Java, JEE, JMS, JSP, Spring, Hibernate, Adobe Flex/AIR, Oracle PL/SQL. I currently have about six software products that I look after.

Started programming with Commadore 64 (actually a TI calculator on which I wrote my first program to do simple integrations). Bought a Macintosh 128 - which I upgrated to 512 by desoldering the memory chips, putting in sockets, and

then putting in denser chips - as Apple should have done in their board design (i.e., socketed memory).

First professional programming gig was coding on Mac using
