About

Interests: math, programming and games, not necessarily in that order.

Favourite numbers: [Surreals](#)

As of **2019 October 1st**, I have stopped almost activity on the DBA site and the whole SE network.

The reason is the abominable behaviour of SE towards its users (see Monica incident, etc).

I have been adding the occasional comment since then but no questions, answers, edits or moderation activities.

And no hats either. No, I do not hate them.
