About

Cofounder of the world's first [Rust consultancy](#) — we are available to help you and your company with any and everything related to Rust! We also produce the [Rust in Motion video series](#) for Manning.

I enjoy programming in a variety of languages, starting in C, touching on Java, moving to Ruby and most recently Rust. I also dabble in frontend frameworks like React and Redux.

I love helping other people one-on-one and seeing them learn.

To make sure that the software I write is useful and used, I am interested in interpersonal communication, as well as
