## About

Do others consider you a C++ expert? Interested in working in New York or Hong Kong in low-latency trading, alongside other talented programmers, FPGA engineers and traders? My company's often hiring - message me on [LinkedIn](#) or email [tony@volanttrading.com](mailto:tony@volanttrading.com).

I started programming in 1984: Zilog Z80 with 32k RAM and a cassette tape for storage. Still love it on modern hardware.
