I am using **HERE** map. I am trying to set voice on turn by turn navigation but i am not able to do that. i tried with `NMAVoicePackage` to set voice but i don't know how to set. following code is what i try.

```
NMAVoiceCatalog *voiceCatalog = [NMAVoiceCatalog sharedVoiceCatalog];
NMAVoicePackage *voicepackage=[voiceCatalog.voicePackages objectAtIndex:0];
[voiceCatalog installVoicePackage:voicepackage]
[[NMANavigationManager sharedNavigationManager] setVoicePackage:voicepackage];

NSError *error;
NSLog(@"starting navigation simulation");
error = [[NMANavigationManager sharedNavigationManager]
startTurnByTurnNavigationWithRoute:self.route];

if(error && error.code != NMANavigationErrorNone){
    NSLog(@"ERROR: failed to start simulation with error code %ld",
(long)error.code);
    return;
}
```

@SourabhSharma turn by turn navigation [here](#). – [Himanshu Patel](#) Dec 29, 2016 at 6:21

Yes I am trying to implement it as given in documentation. But With no success. Could you mail the sample you made on turn by turn after reading the doc. I am struck here. I am not good in objective c. Please help. – [Sourabh Sharma](#) Dec 29, 2016 at 6:29

@SourabhSharma i didn't made sample. – [Himanshu Patel](#) Dec 29, 2016 at 6:36

tcs.ext.here.com/sdk_examples/ExtendedSwiftExample.zip Use this sample man

Kindly check your Navigation Mode set as driving.

2

Voice instructions are only available in Navigation Mode for driving. Users of the pedestrian Navigation Mode receive audio beeps and vibrations alerts at the change of each maneuver. [Link](#)
