About

Well, fancy seeing you here!

I work for [EDB](#), assisting a bunch of really skilled people share their PostgreSQL expertise and experience with the world.

Before that, I worked here - at Stack Overflow / Stack Exchange. Here, my duties *a/so* involved helping a bunch of really skilled people share their knowledge. So you might encounter some posts from me which provide guidance and advice for the folks using this network of Q&A sites.

I tend to write as though I know what I'm writing about... And sometimes I do... But, you should always use your own judgement: question everything, read the links to supporting materials and draw your own conclusions. I'm usually happy
