## About

As a programmer, I've been around the block a few times. Know a lot about C/C++, Windows, x86 assembly ISA, graphics, numerical analysis, algorithm design, performance optimization, GP-GPU, OpenCL, CUDA and a few other things.

Know a little about Linux, C#, .Net., JavaScript

Know almost nothing about web services, ASP, Active directory, SQL, python, rails

"Live in Gote, die in Sente" is a Go Proverb.
