About

I'm Zach Burlingame, a software developer (duh!) living and working in the Washington, D.C. area. I consider myself a software development generalist at this point as I continue to work on a variety of projects in native C/C++, C# .NET, and Java SE.

Fun fact #177: I didn't get my first computer until my freshmen

year of college so I've been playing catch up with all you Commodore64-since-conception folks!
