About

Actuary, finance and risk oriented; musician, amateur programmer...

I love mathematics, probability, statistics, numerical methods, music... and whatever challenges the creativity of human mind.

Some links I think it's worth to read:

- *"What have you tried?"* by Matt Gemmel

- [Need an Answer? Actually, No ... You Need a Question](#)

And some useful links for online code editing:

- [SQL fiddle](#) (a good tool to create SQL reproducible examples)
