About

I'm a C++ programmer, interested in linux, compilers and toolchains and generally the embedded software stack.

Standardese answers:

- [How does `boost::is_base_of` work?](#)
- [Injected class name and constructor lookup weirdness](#)
- [What happens when `op[]` and `op T*` are both there.](#)

FAQ answers:

- [Where to put "template" and "typename" on dependent names (now also covers C++11)](#)

- [Undefined behavior and sequence points](#)
