About

Enterprise application developer and software architect, focusing primarily on the Microsoft stack and web platform.

I currently work as a consultant in Massachusetts. (A career path starting from a job I found on Stack Overflow Careers oh so long ago, thank you very much.)

Career aspirations involve becoming a better developer, a better architect, and maybe even getting published once I find something about which to write.

Hobbies include running, Krav Maga, and various home improvement projects that I'll never finish.
