About

If you want the other to take you serious, take your craft serious - be a professional.
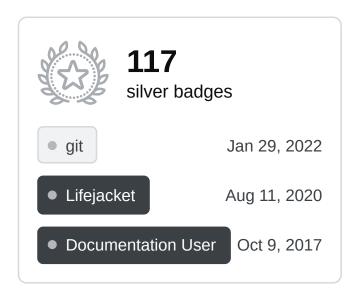

I'm a software developer since 2002 and founded Link Intersystems in 2011. My favorite programming language is Java, but I'm also experienced in other languages. I focus on design, architecture and clean code.

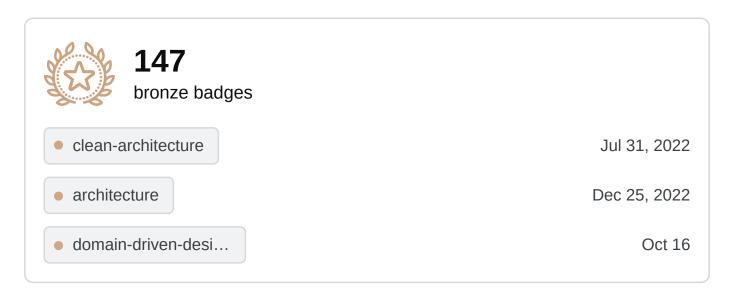

- Check out my blog at http://www.link-intersystems.com/blog/

- My code at github https://github.com/link-intersystems
- My youtube channel clean-code.guru (german)
- My code at codepen.io
