About

I'm [Jon Cram](#), a software developer and interface designer living with my wife and cat ~~on a boat near London (UK)~~ in a house in Cardiff. I work for [Box UK](#) [Lime Green Tangerine](#) myself on a new startup.

I work mostly with web apps, developing in PHP for quick-and-easy bits and Java for heavy-duty bits.

I recently discovered that Grails is the best thing ever.

I own and run [Hosting Reborn](#), the UK's first pay-as-you-go web hosting service.
