About

I am currently the Chief Operating Officer at a new startup. Previously, I was Chief Operating Officer at **Stack Overflow**, aka, Stack Overflow Coveted Employee #C800:0000.

I was also Founder/CTO of [Allworx](#) that achieved a respectable exit and in general think of myself as an [Entrepreneur](#).

I like to work on and think about building businesses, market positioning and product strategy. Although, by training, I'm a

Software Engineer, Hardware Engineer, Embedded systems and Networking Expert.
