About

I'm a jack of most trades residing in Sweden and usually involved with full-stack web development technologies. I work for [tretton37](#) as a contractor, my list of clients includes among others Sony and IKEA.

I dabble in open source software and have many projects in [my Github repository](#) and [my Bitbucket repository](#), among many:

- [RefluxJS](#) - Library for uni-directional data flows, inspired by Facebook's Flux

In the little free time that I have, all kinds of stuff happen such as [drawing pretty pictures](), perform ball juggling, play a guitar, hack on games, and solve a Rubik's cube.
