About

I'm a longtime hacker and software practitioner.

Creator of [IIRF](#), [DotNetZip](#), [ReloadIt](#), [CleanModQueue](#) and a bunch of other Apigee-related tools and scripts.

Maintainer of csharp-mode and a few other emacs-y things .

I'm a Polyglot: Java, JavaScript, golang, a little PHP, C#, some VB.NET, C, XSLT, Powershell, elisp of course. Currently most of the work I do is JavaScript and NodeJS.

I work for [Google](). We're hiring API geeks around the world. see:
